Best Spring Medicine.

Whitwell's Temperance Bitters.

THE best remedy for Jaundice, Indigestion, Costiveness, Worms, Loss of Appetite, Drowsiness, Nervous Complaints, Headache &c

Nearly all persons, especially those engaged in sedentary employments, feel the necessity of some tonic or strengthening medicine, during the spring and summer months. No article can be better calculated to ... ed by all who have used them. They are made on a new principle in medicine, boiling water being substituted for alcohol in extracting the virtues of the ingredients. The articles of which they are composed are strongly recommended in all Medical Books, both European and American. They are put at the lowest possible price in order to place them within the means of all. Sold in pint bottles at 25 cts each, $2,00 per dozen

—ALSO—

Whitwell's Detergent Bitters in papers, price 12½ cents each, $1 per doz

WHITWELL'S ORIGINAL OPODELDOC.

☞ Recommended by the late Hon S L Mitchell M D, LL D, Prof of Physic in the N Y College of Physicians.

For the cure of Rheumatism, Gout, Cramp, Sprains, Stiffness of Neck or Joints, &c. this article has stood a test of more than 20 years, and is far superior to any other. One trial will fully prove this. Beware of Imitations, and see that every bottle has the signature of J P WHITWELL on the wrapper before you purchase. ☞ Never buy of Pedlars, they always sell a worthless article—Price 25 cts a bottle

F. BROWN'S SARSAPARILLA AND TOMATO BITTERS.

THESE excellent Bitters will be found a certain cure in all cases of Indigestion or Dyspepsia, Jaundice, Loss of Appetite, General Debility, Faintness and sinking of the Stomach, Lowness of Spirits, Costiveness, Determination of Blood to the Head, Pain in the Limbs and Side, Diarrhœa, Weakness, Dizziness, Cutaneous Eruptions on the face and neck, fever, night sweats, nervous and sick headache, Acidity of Stomach, billious affections, piles, costiveness, and in all diseases caused by impurity of the blood, the debility of the system or the unhealthy state of the stomach and bowels

They are also exceedingly efficacious in restoring constitutions broken down by sedentary employments and have been extensively used by Clergymen, Editors, Printers, Clerks, Seamstresses and numerous others whose health had been injured by confinement and close application, with the happiest results

They restore the action of the stomach, increase the quantity of the blood and impart to the wan and emaciated system of the invalid the vigor and glow of true health

These Bitters are warranted to be a purely Vegetable compound—and mark this, ☞ they can never do the least injury in any case whatever. ☜ They are kept by many persons as a FAMILY MEDICINE, and have been given to the youngest children, on account of the mildness of their operation, with excellent effects

Be sure and always ask for Brown's as there are imitations and counterfeit articles sold which are no more like the genuine (which is prepared by Frederick Brown) than cold water

Address all orders to F Brown, the Proprietor No 68 Washington-st Boston

HINTS FOR THE WARM SEASON.

THIS wonderful compound combines MEDICAL POWERS over all other preparations ever formed for the relief of the diseases for which it is recommended such as Headache, Dizziness, Sleepiness, Noises in the Head, Bad Taste in the Mouth, Nausea or sickness in the Stomach, Loss of Appetite, Indigestion, Dyspepsia, Fever and Ague, Pain after Eating, Sour Stomach, Heartburn, Jaundice, Costiveness, Determination of Blood to the Head, Piles, Coughs, Colds, pain in the side, back, limbs and joints, Rheumatism, all Chronic Diseases, Scrofulous Humors, Salt rheum and all Cutaneous Eruptions of the Skin, General Debility, &c

The DANDELION AND TOMATO PANACEA is particularly recommended in cases of Indigestion and Dyspepsia. The following are some of its distressing symptoms. Palpitation of the heart, heartburn, loss of appetite, pain after eating, languor, melancholy, restlessness &c. It will cure the worst cases of

RHEUMATISM

and will eradicate mercury from the system infinitely faster and better than the common Sarsaparilla preparation. The *Dandelion and Tomato Panacea* is, as all must be aware from the ingredients of which it is compounded, the best as well as the safest

Spring and Summer Medicine

now before the public. Spring and Summer are the seasons when

Jaundice Complaints

are most prevalent. The symptoms of these complaints are

Drowsiness, Dimness of Sight, &c

It has proved itself a most astonishing and effectual remedy for that worst of all maladies

The Piles

because it cleanses and enables the stomach to discharge into the bowels and causes a free circulation and regulates the whole system, and thereby prevents

Costiveness

In cases of Costiveness, either of recent or long standing, it has proved itself effectual after all other remedies have failed

Scrofula, or King's Evil,

and all other eruptions of the skin are caused by the impure state of the blood, and to have pure blood a medicine should be occasionally taken—The Panacea is wonderful in its effects for purifying and

Cleansing the Blood,

and is therefore a preventive for all eruptions of the skin and will eradicate

Humors

of long standing, and in fact it is requisite for the promotion of

Sound Health

from the most exhausted constitutions

The London Quarterly Review,

The Edinburgh Review,

The Foreign Quarterly Review,

The Westminster Review,

AND

Blackwood's Edinburgh Magazine

THE above Periodicals are reprinted in New-York immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals—BLACKWOOD'S MAGAZINE being an exact fac simile of the Edinburgh edition

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise. As literary organs they stand far in advance of any works of a similar stamp now published, while the political complexion of each is marked by a dignity, candor and forbearance not often found in works of a party character

They embrace the views of the three great parties in England—Whig, Tory and Radical—Blackwood and the London Quarterly are Tory, the Edinburgh Review Whig, and the Westminster Radical. The Foreign Quarterly is purely literary, being devoted principally to criticisms on foreign Continental Works

The prices of the RE-PRINTS are less than one third of those of the foreign copies, and while they are equally well got up, they afford all that advantage to the American over the English reader

WHIG NOMINATION.

FOR GOVERNOR,

DAVID BRONSON.

Hasty Notes from Notches on the Memory.

LOWELL, in Massachusetts, has become a great city This has been accomplished within little more than twenty years, and has been effected by the increase of manufactures Here is an industrious population actively engaged in manufacturing, and enjoying the advantages of cultivated society,—with churches, school houses, lecture rooms, benevolent associations, rich stores, good daily newspapers, and other periodicals, ample work-rooms admirably fitted with machinery, comfortable dwellings, banks, and all the other essential elements of a large and prosperous city

On first entering the city, the large brick mills and their ranges of boarding houses attract attention The out door business which most impresses one is that connected with Bread and-Butter dom The market men and grocers—those who supply the thousands here day by day with their subsistence, are the stirring men in the streets Very important people to the boarding house keepers are these market men and grocers, and they delight in magnifying their office The baker and the butcher, the grocer, the brewer and the fruit dealer, each has his wagon for conveying to their places of consumption the articles purchased This subsistence department of the city is well arranged for the accommodation of the numerous widows who here preside over boarding-houses, and we should judge that generally they do not suffer from the market being forestalled

Of the thirty thousand inhabitants in this city, about ten thousand are operatives in the mills, of which there are nearly forty, with a capital in all of about twelve millions of dollars, and which turn out each week about a million and a half yards of cloth To the laborers in these mills is annually paid a sum of not less than one million and a half of dollars

We have abundant materials at hand in the way of statistics, but our readers would hardly feel like digesting them this warm weather—There is a great variety and amount of mechanical labor performed here not connected with the incorporated companies Among them is a famous large steam saw mill, erected and owned by those enterprising Bangoreans, Messrs Fiske & Norcross The steam engine, driving this mill, the largest in the city, was built at Bangor by Messrs F Muzzy & Co, and works admirably Large quantities of lumber are here manufactured in true Penobscot style, the logs being obtained on the proprietors large purchase among the White Mountains, where our friend N G Norcross, Esq, has acquired the title of 'Timber King' His enterprise and perseverance and success have astonished the lads up per New Hampshire and all along the Merrimack river. He met with an accident a few [illegible] and breaking one of his legs, but he is now nearly recovered and able generally to attend to his business The daring and skill of his lumbermen from the Penobscot have acquired for them great fame in all this region, and they have accomplished supposed impossibilities Messrs Fiske & Norcross have a contract for supplying the new city of the Essex corporation at Methuen with about a million and a half of dimension lumber

But our readers must bear in mind that the Lowell is a perfect hive of industry, it is not without those institutions of education, religion, benevolence and philanthropy which are the necessary elements in a civilized and Christian community, and which appropriately are maintained in our New England communities—These institutions are important here and essential to the welfare not only of the people, but also to the success of capital here invested For what would be the value of this capital if any great physical and moral evils permanently existed The existence of such evils would cut off the supply of help, and the mills would be worthless Private interests are therefore joined with the higher considerations of moral duty in securing the best results of a moral police and of benevolent and philanthropic regard for the welfare of all Few, if any, at work here, are doomed thus to remain Here are thousands of girls from the virtuous homesteads in Maine and the country generally They come here, some of them, to earn money to be appropriated for redeeming the mortgaged farm at home, others to defray the expenses of their education, others for the procurement of a marriage outfit There is great potency in the public sentiment in favor of purity vigorously maintained here by these girls They feel that their characters and safety are in their own hands and can only be maintained by frowning upon every appearance of evil and by an immediate exposure of the vicious So far as purity is concerned, we should feel less anxiety in having a daughter employed in a mill in this city, than in her attending any of the popular boarding schools in the country We speak this with no small personal knowledge of Lowell society and its public sentiment extending over more than twenty years, and from the opinions of those whose opportunities of knowing the truth in the matter have been greater than our own

The means of public religious instruction are furnished by the organization of nearly thirty religious societies and the maintenance of nearly as many ministers These societies have their Sabbath schools and other means of imparting moral and religious instruction

For the promotion of public education, great efforts are made More than one hundred thousand dollars have been expended in erecting school houses The schools are well classified, the teachers are able and faithful The education of the rising generation is felt to be a great matter, and efforts corresponding with its importance are put forth. There is a large public library maintained by the city, with the exception of only fifty cents a year paid by each resident of Lowell who desires to avail himself of the use of the library

There is a ministry at large and a free chapel, a well ordered public hospital for those employed by the corporations, when taken sick.—Many other institutions, and among them the Mechanics' Institute, are worthy a notice, but to do so would extend these notes to too great length

The several papers and other publications here are numerous. The Lowell Courier, published daily by Col Wm Schuyler & Co, is an able and influential Whig paper The Colonel is now on a visit to Europe, where he was born, and during his absence the paper is conducted by Mr —— Robinson, who has for some time been assistant editor in the office, and who now as principal, sustains with much credit the character of the paper There are several other papers of the merits of which we are unacquainted,—and then there is the Lowell Offering, by the Factory Girls The reputation of this monthly is world wide, and highly honorable to 'mind among the spindles'

They have established here a beautiful rural cemetery in an oak grove about a mile from the city It contains about [illegible] acres, and is much after the character of Mount Auburn, so justly celebrated The natural beauties of this spot for the purpose of a cemetery are great, and the hand of art has done and is doing very much to mingle the fascinations of its beauties with those of nature Here are many beautiful and some splendid monuments The richest we noticed was the monument of Zadock Rogers, Esq, once a poor farmer, but who was made a very rich man by the growth of Lowell and the consequent increase of the value of his land

A great many thoughts crowd upon the mind on visiting the city of Lowell We feel at times like indulging in giving them utterance—but this article is already sufficiently extended, and without wearying others or ourselves, we will here cut it short

☞It is believed that the present war with Mexico which is costing an immense sum of money, and the exposure of many men who could be better employed, to sickness and hardships, could be closed up honorably in a very short time if the administration desired it In prosecuting the war there are no honorable laurels to be won It has degenerated into a mere war, a wicked war for the acquisition of territory out of which to make slave States By withdrawing our military force into our own territory and proposing peace to Mexico the proposition would undoubtedly be accepted

Now it is worthy the serious thought of every man, particularly in the free States to enquire earnestly of his conscience whether this war for the extention of the slave power should be increased Is it not sufficiently atrocious that American slavery should exist in the boasted land of freedom as a State institution without the arms of the Union being made to uphold and increase the slave power in the general government? But the administration is pushing on with might and main, commanding the purse and the sword of the nation for this very object While the executive is pursuing this course, the legislative branch of the government is engaged in the abominable work of tempting in foreign manufactures to complete with the free labor of the country, not to help and build up the South, for such will not be the effect, but to chastise the free States for interposing the slightest objection to the crying sin of slavery These matters demand the attention of every citizen of the free States The [illegible] manly boldness which will touch the heart of every man in the free States

We heard a while since of one clergyman saying that he had questioned with himself for preaching against the atrocities of the present war, and had found himself guilty in having said so little The wonder with him was how he could preach about any thing else

☞The Ohio Statesman, the leading Locofoco paper in Ohio, speaking of the Oregon treaty, says—"The President, to speak plainly, acted very much like a well meaning but rather timid man who, having got into what he considered a rather bad scrape, simply because the position was a novel one, is disposed to get out of it in any way that may present itself The Senate afforded the only road to a place of comparative safety, and that he availed himself of it with a degree of speed not calculated to heighten our ideas of his courage, is to be regretted, but to ask us to admire it, or to marvel at his dexterity, as if he had been witnessing a race, or a juggling feat, is quite too much for our temper"

☞We have received from the publisher, Theophilus Fisk, the first number of a new monthly periodical entitled The Talisman and Illustrated Odd Fellow's Magazine, published at Philadelphia at one dollar and fifty cents a year It is a highly interesting periodical, well printed Mr Fisk, the editor, is a man of decided talent and if he can continue to keep quiet in the steady pursuit of the great object of promoting the welfare of the order he will accomplish much good We wish him great success and would call the attention of the brethren to his work

The Washington correspondent of the New York Commercial states that many of the friends of free trade are of opinion that the expenses of the Mexican war should be paid by a direct tax

This may be so, but the slave interest will be slow to agree to the expenses of the government being thus paid, and yet they have not the prudence to provide for the payment by any other means except of issuing treasury notes

☞President Polk and his Cabinet have in active operation, stupendous schemes for wasting money in Mexico, from California to Tampico We are in the midst of gigantic plans of conquest, that equal any thing Napoleon designed Money, by millions and millions, is to be drained from us, and thus wasted, and all this for the miserable purpose of increasing the political power of slavery, when in truth and in fact it should exercise no political power not secured by the Constitution

☞One of the Paris papers states that the new Pope, late Cardinal Mastai Feretti, was once a sub-lieutenant in the guard of honor of Napoleon, and a disappointment in love—the death of his betrothed—made him cast aside his uniform for the soutane This bit of sentimentality has probably no other source than the fertile imaginings of the Parisian press.

☞The President has granted a free pardon, with remission of fine, costs, &c. to Capt. Jason L. Pendleton, who was convicted at Baltimore of being engaged in the slave trade

Proposed Compromise on the Tariff Question.

The Washington correspondent of the N Y Express gives the following outline of the proposed compromise of the Tariff, by Mr Webster It is understood that the democrats in Congress will not consent to it

The reduction of revenue under the bill will be material, and this it is proposed to provide for a duty on tea and coffee The imports would be reduced four millions upon the basis of last year

Their opinion is that the reduction of duties upon goods paying over thirty per cent, operates unequally—the thirty cent remaining permanent as at present, and all below also permanent, and this while all goods between thirty and forty per cent are reduced to thirty

Articles paying forty per cent are reduced to thirty at once, the articles paying thirty per cent not at all This, however, is rather a dog in the manger argument than a really good one It is believed however, to be a half way measure by some and this would be worse than nothing

The gentlemen who have framed the bills, however, deny this, and say that while all interests are sure to die or suffer under McKay's bill all may be saved under the proposed compromise

The question will be seriously and earnestly discussed and all who are interested should promptly give their attention to it Had the friends of protection been half as zealous as the friends of free trade, and their agents here, the bill of Mr McKay could never have passed the House E S

The Philadelphia North American gives the following, as emanating from unquestioned authority, adding that it will undoubtedly be offered to the friends of protection

Proposition for an amendment of the Tariff Bill now before the Senate

Strike out all after the enacting clause and insert—

That from and after the first day of December next, there shall be a reduction of 25 per cent, of the duties, whether specific or ad valorem, now imposed by law on articles or imported merchandise, whereupon duties exceeding 30 per cent ad valorem are now charged, excepting brandy and other spirits, distilled from grain and other materials, and wines *Provided, nevertheless*, That duties on articles now charged with more than 30 per cent shall not be reduced below 30 per cent

☞All Pennsylvania appears to be in an uproar concerning the tariff bill of Mr McKay—A great meeting of Locofocos has been lately held at Philadelphia, at which some strong resolutions were passed Among them is the following

Resolved, That if the cotton growers of the South press this matter to such a pass as to drive the country to a state of bankruptcy, we will follow in the footsteps of our Revolutionary fathers, who, rather than to be forced to take the manufactured goods of the mother country, met, resolved, and kept their resolve, to use no foreign goods whatever A league of the kind here suggested will give to the working men of the country a true tariff—the tariff of American patriotism

Brutal Treatment.

We copy the following from the last Eastport Sentinel It is but a specimen of many cases of a similar kind, which are continually occurring upon our coast, but which are seldom given to the public The wretch who has the heart to treat a fellow being in the manner here described, deserves the pity, if not contempt, of mankind

It becomes our painful duty this week, to record one of those exhibitions of brutality in a being of humanity bleed The following is briefly the heart sickening tale—A vessel (we have not learned her name) came into Pembroke about a week since, with one of her hands, James Allen of Camden, sick in the forecastle After keeping the sick man in this situation a number of days on gruel, "warm once a day, and then it tasted good, —the victim's own words not five minutes before he gasped in death,—and finding him of course hourly wasting under such treatment the base-hearted wretch of a master, Capt Richardson of Deer Isle, to get rid of the trouble of a sick hand, who had been in his or his father's employ for 17 months and to throw the expense upon the Custom House, sent him, sick as he was, last Monday morning in an open carriage beneath a scorching sun, and over a dreadful road, 12 miles, to this port The Mute arrived with him about noon, and drove to D Hawkes office The dying man got from the carriage and walked unaided into the house, but the energies of nature were exhausted He was laid upon a couch, and after panting a few minutes, sunk without a groan into the cold grasp of death His last words were, "It was cruel to bring me so far when I was so sick want it? and on being asked if he expressed no reluctance to come, answered with a look that would have wrung a tear from a heart of adamant, "I was obliged to come"

Dr. Lardner's Lectures.

Messrs Greeley & McElrath have published the fourteenth and concluding part of Dr Lardner's Popular Lectures on Science and Art—The whole forms two large octavo volumes, which are filled with popular reading on scientific subjects, accompanied by numerous illustrations These lectures are now bound in two volumes, and make valuable reading for families and particularly for young men The volumes should be in every library, and upon the book shelves of every family who can afford to own them

☞A company of women to the number of about forty turned out a few mornings since in Utica N Y armed with axes, hatchets and the like, and proceeded to a bowling alley which had long annoyed them, and kept from business and the domestic circle, not a few husbands, and there deliberately demolished the building

The Union says—"We understand by the Cambria, that our distinguished Minister in London is preparing to return home, and will embark for the United States as soon as the necessary arrangement has been made for his successor

The Columbia (Pa) Spy, says the rot prevails very extensively in that region among the potatos

Never throw your orange peel on the side walk Scores have been thrown down by stepping on peel and injured for life

☞There has been an abundance of rain here recently

☞The Universalist Sabbath School will make an excursion to Castine to-morrow, should the weather be pleasant

☞We are under obligations to Jerome & Co's Express, for papers, by the Governor on Saturday.

Why is flour like the earth? Because it is ground

Offer of Mediation.

The Union, noticing that portion of Sir Robert Peel's speech wherein he speaks of the offer of the good offices of the British government for the purpose of mediation between the United States and Mexico, says

"We have already stated more than once that no offer of mediation had been submitted to our government, and we feel our ourselves authorized to repeat the declaration Sir Robert Peel was no doubt under the impression which he avowed but no such offer has been made, and we doubt very much whether the able minister of Great Britain, in Washington, has yet received instructions to that effect

Another Fatal Accident

Mr J B Winslow, a stone mason, was instantly killed this morning, while at work on the new Northern Canal, near the Stone House The workmen were hoisting a stone with a derrick, when the hook which holds the boom broke, and the boom fell, striking Mr Winslow on the head, and killing him instantly The unfortunate man was a resident of South Boston, where he has a wife and six children He came from his home this morning and had only been at work about fifteen minutes He was about 45 years old, and an excellent man His body will be carried home to day, in the cars—[Lowell Courier

Kissing.

Dow, Jr closed a sermon on kissing with the following quaint advice

I want you my young sinners to kiss and get married, and then devote your life to morality and money making Then let your homes be well provided with such comforts and necessaries as pity, pickles, pots and kettles, brushes, brooms, benevolence, bread, charity, cheese, faith, flour, affection, cider, sincerity, vinegar, virtue, wine and wisdom Have these always at hand and happiness will be with you Do not drink anything intoxicating—eat moderately—go about business after breakfast—lounge a little after dinner, chat after tea, and kiss after quarrelling, and then all the joy, the peace, and the bliss the earth can afford, shall be yours until the grave closes over you, and your spirits are borne to a brighter and a happier world

A lady who was suffering under a slight indisposition told her husband that it was with the utmost difficulty she could breathe, and the effort distressed her exceedingly "I wouldn't try, my dear, soothingly responded the kind husband, 'nobody wants you to

Animal Magnetism.. Heigh, Ho!

'Come, place thy little palm in mine,'
The young Professor said,
'And let my eyes be fixed on thine,
This cushion for thy head
And Fanny, with a bashful grace,
Sat down and looked him in the face

Then up and down like a mad witch,
His hands moved in the air,
And Fanny's sweet mouth gave a twitch,
Her eyes a sleepy stare
'Don't you feel queer?' young Mesmer said,
'Yes—very queer,' replied the maid

Again the hands moved up and down,
He touched her forehead fair,
But Cupid had just come to town—
The wily rogue was there,
And peeping from behind a screen,
He slily watched the magic scene

The young Professor's heart beat fast,
He too an influence felt,
Sweet visions o'er his fancy past,
He thought he could have knelt
And worshipped Fanny in her chair
She looked so wondrous sweet and fair

He turned aside almost in fright'
What! shall a maiden's eyes?—
[illegible]
Be put to flight by woman's looks?—
He wished he had old Mesmer's books

Quick passes now he vigorous makes,
His arm raised high in air,
Cupid his keenest arrow takes,
Determined not to spare
And deep in the Professor's heart,
It flew with a delicious smart

Cupid, sly dog, laughed out in glee,
Then panting, said 'they dare,
The silly fools try cheating me,
With science spun of air
I'll let them know, these wondrous wise
That I alone can magnetize

Dr. Wistar's Balsam of Wild Cherry.

This is the chemical extract of Wild Cherry and Tar Every body knows that Wild Cherry possesses important medicinal properties and Tar Water has always been administered in Consumption and Lung affections generally by our oldest and safest physicians

Various remedies it is true, have been offered and puffed into notice for the cure of diseases of the lungs and some have been found no doubt very useful but of all that have yet been discovered it is admitted by physicians and all who have witnessed the effects that none has proved as successful as this For Asthma, Shortness of Breath, and similar affections it may be pronounced a positive cure It has cured Asthma in many cases of ten and twenty years standing, after physicians had declared the case beyond the reach of medicine

This Balsam is made from materials which Nature has placed in all northern latitudes as an antidote for diseases caused by cold climates

"Nature is but the name for an effect
Whose cause is God"

Absolute Heal-All!

Mr Adams, Sir My little daughter, last winter aged one year pulled a coffee pot filled with boiling hot coffee off from a stove, on her neck and arms and one side and also on the back of her head, and was in great distress, as you might suppose till I procured a box of Connel's Pain Extractor, when strange to tell, in from four to ten minutes after the application, she stopped screaming and in a very short time appeared free from pain and within twelve days she was healed, and no appearance even of a scar remains, excepting on her back which was not attended to so much as the other parts I know it to use in other cases with like success and will say that all has been said of its wonderful healing virtues I believe to be strictly true. BY THE LAST MAIL.

Later from the Army.

The New Orleans Delta, of the 16th, says, positively, that on the 5th inst the 4th and 7th regiments (regulars) left their quarters at Matamoras for Camargo, in transports, and that the Jackson regiment, Col Marks, and the Washington regiment, Col Walton, left Fort Brown, by like conveyance, on the 6th and 9th

The rise in the Rio Grande is so great that it has overflowed its banks, and it is now almost impossible to travel by land from Barita to Matamoras or above it

The British sloop of war Rose arrived at Brazos on the 10th and the U S schr Flirt on the 10th inst, both from Tampico The U S revenue cutters Ewing and Van Buren, the former from New York and the latter from Charleston were at anchor off the bar The U S revenue cutter Forward, arrived at Galveston on the 13th

Col McIntosh, and his son, who fought as a volunteer in the battles of the 8th and 9th May, and Lieutenants Belsh, Power and Lowe, of the U S Army came passengers on the New York Col McIntosh is so far recovered from his wounds as to be able to walk without assistance

Mr De Grey, from Chihuahua says that he left that place about twenty seven days ago, in consequence of the Mexican Custom House officer river guard having seized the goods which he was taking from San Antonio to Chihuahua—He states that he was arrested several times on the route, but managed to obtain his release—The first intelligence he received of the battles of the 8th and 9th May, was at Monteclova, owing to the desert country through which he passed At Monteclova he found the most perfect apathy prevailing in regard to the war

—Six hundred men had volunteered at that place for the Rio Grande, but the war having that they mutinied and left to the number of five hundred immediately after being advised of the result of the late battles The same spirit seemed to prevail throughout the whole country over which he travelled—he heard no opinion expressed favorable to joining the army and carrying on the war

Arista says he has had enough of the Mexican army, and intends remaining at his rancho The remnants of the army 3 or 400 strong are to at Linares in a miserable condition Canales was a few miles above Reynosa with 125 men A passport was given to Mr DeGrey by Carcabajal, under which he received no molestation

Mexico and the United States.

Washington July 23

Mr J R Ingersoll asked leave to offer the following Resolution As soon as read Mr Dromgoole of Va and Mr Rathbun of New York objected Peace even in prospective does not seem to please the war hawks of the Administration

Resolved, That at a period and under circumstances when no liability exists to misconstruction of the measure, or danger of impeachment of the motives which induce it, a reasonable effort should be made consistent with national dignity and honor for the restoration of Peace between the Republic of the United States and that of Mexico

That the Senate and House of Representatives respectfully recommend to the President of the United States, that he offer if in his judgment it be expedient, to open with Mexico a negotiation the purpose of closing the present war, and of preventing the effusion of human blood and of providing a permanent and satisfactory arrangement of all existing differences

That the offer now recommended cannot fail to procure (whatever may be its reception and immediate effect) ultimate consequences alike beneficial to the country and beneficial to the cause of justice I accepted in a spirit corresponding with that which prompts it this nation will be restored to its natural progressive course of prosperity and happiness and will secure to itself a sentiment of universal good will

If refused from whatever cause the refusal may arise, the nation which assumes a responsibility so fruitful of threatened wretchedness, will deprive itself of every claim to the sympathy of the world and this government and country will assume a position so lofty and so firm that humanity itself will sanction a necessary continuance of the ravages of war [illegible] either of hostilities between the two nations, or a disturbed state of public affairs in one of them Intercourse may be opened if necessary from army to army, at the point of the bayonet, or with better hope, through the amicable agency of a friendly foreign power

Affairs at Washington.

Washington, July 22, 1846

In the Senate, Mr Dix presented a memorial of 401 mechanics of Fishkill N Y, against any change in the tariff of 1842, and asking Congress to let well enough alone

Mr Hannegan submitted a resolution calling on the President for a copy of the instructions to Mr McLane, our Minister in England relative to the settlement of the Oregon question, and copies of his correspondence on the same subject, which was laid over till to morrow

The Post Office Committee reported a bill for the conveyance of the mail to Oregon

The pay and mileage bill was taken up, the amendments concurred in, and the bill passed

After some unimportant business, the tariff bill was taken up

Mr Cameron made an able defence of the protective duties and gave an interesting account of the last Presidential campaign in Pennsylvania, reminding the Vice President that but for the Kane letters, banners &c, Polk and Dallas would not have had the vote of Pennsylvania

The House went into committee of the whole Mr Dunlap in the Chair, and took up the joint resolution fixing the prices and to authorize executing the public printing

Mr Garrett Davis addressed the Committee in favor of a reduction of prices and a reply in dr to Mr Bailey's speech of yesterday

Mr Bailey replied

The Committee rose, and the House adjourned

Washington, July 25, 1846,

In the Senate, Messrs Benton Evans and Lewis were appointed a Committee of Reference on the Army Appropriation Bill

The Committee on Printing reported against printing the Tariff memorials

Mr Cameron presented petitions from Democratic Counties of Pennsylvania, which gave 24 665 Democratic majority in 1844, nearly three times the majority of the State remonstrating against the repeal of the Tariff He moved to refer them to the Printing Committee

After further debate Mr McDuffie renewed the motion to lay these petitions on the table Lost Yeas 25—Nays 26.

[Mr Haywood voted with the friends of the Tariff of 1842, and thus gave them a majority of one]

The petitions were then referred

The report of the Printing Committee against printing the Tariff petitions, was taken up and the vote on agreeing with it resulted in a tie—Yeas 25, nays 25

Mr Dallas, the President of the Senate, gave the casting vote in the *negative*

So the report was not agreed to and the petitions were then ordered to be printed

Mr Cilley presented Resolutions of the Legislature of New Hampshire, in favor of the Tariff and Protection

The tariff bill was taken up

Mr Upham of Vt spoke for two hours against the bill

Mr Simmons of R I followed in an able speech in behalf of the manufacturing interests He had not concluded when the Senate adjourned

The House went into Committee, Mr Dromgoole in the Chair, and took up the bill to transfer the superintendence of the Patent office from the Department of the Secretary of State to the Department of Attorney General Discussed, amended and laid upon the table

The bill making appropriation for the defence of New York harbor was considered.

Correspondence of the N. Y. Express.

Washington, July 23

The Tariff question remains in *statu quo*,—compromises and all, of which, there are now two, both glanced at by me in my letter of last evening The little sparring upon the question of printing memorials, remonstrating against the repeal of the Tariff of 1842, [illegible] the turn of the wind and nothing [illegible]

Mr Haywood votes with the Whigs, because the bill was not referred to a committee for investigation Not being committee the Senator from N C thinks that they have a right to [illegible] Senate Mr H evidently [illegible] gently and fairly upon this [illegible] no doubt do so, if not over [illegible] associations, which he has [illegible] much more of a man than he can [illegible] ly do

SICKNESS IN CHILDREN

And the suffering which they undergo from "WORMS" often lead to a fatal termination while the CAUSE is never suspected. Offensive breath picking at the nose, grinding the teeth during sleep starting in sleep with fright and screaming, troublesome cough, and feverishness, are among some of the *Prominent Symptoms* of the presence of worms. A timely use of

SHERMAN'S WORM LOZENGES

Will immediately remove all these unpleasant symptoms and restore to perfect health. Sister Ignatius, Superior of the Catholic Hall Orphan Asylum has added her testimony in their favor to the thousands which have gone before. She states that there are over 100 children in the Asylum, and that they have been in the habit of using Sherman's Lozenges, and she has always found them to be attended with the most beneficial effects. They have been proved to be infallible in over 400 000 cases.

CONSUMPTION,

Influenza, Coughs, Colds, Whooping Cough, Tightness of the Lungs or Chest may be cured. Rev Darius Anthony was very low from Consumption. Jonathan Howarth, the celebrated temperance lecturer, was reduced to the verge of the grave by raising blood. Rev Mr Dunbar of New York, the Rev Mr De Forest, Evangelist in the Western part of this state, Rev Sebastian Streeter of Boston, the wife of Orasmus Dibble Esq in Moravia, and hundreds of others have been relieved and cured by a proper use of

SHERMAN'S COUGH LOZENGES

And no medicine has ever been offered to the public which has been more effectual in the relief of those diseases or which can be recommended with more confidence. They allay the itching or irritation, render the cough easy, promote expectoration, remove the cause, and produce the most happy and lasting effects.

HEADACHE,

Palpitation of the Heart, Lowness of Spirits, Sea sickness, Despondency, Faintness, Cholic, Spasms, Cramps of the Stomach, Summer or Bowel Complaints, also all the distressing symptoms arising from free living or a night of dissipation are quickly and entirely relieved by using

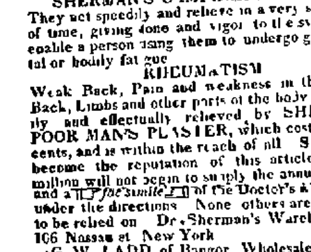

SHERMAN'S CAMPHOR LOZENGES

They act speedily and relieve in a very short space of time, giving tone and vigor to the system, and enable a person using them to undergo great mental or bodily fatigue.

RHEUMATISM

Weak Back, Pain and weakness in the Breast, Back, Limbs and other parts of the body are speedily and effectually relieved by SHERMAN'S POOR MAN'S PLASTER, which costs only 12½ cents, and is within the reach of all. So great has become the reputation of this article that one million will not begin to supply the annual demand, and a ☞ *fac simile* ☜ of the Doctor's written name under the directions. None others are genuine or to be relied on. Dr. Sherman's Warehouse is No 106 Nassau st New York.

A New [illegible] Cooking Stove.

The [illegible] Cooking Stove.

THE subscribers after great expenditure have succeeded in bringing this admirable Cooking Apparatus to perfection and are now prepared to furnish the public with the very best article ever invented. This Stove has had three of the highest premiums awarded to it that were ever awarded to a Cooking Stove, at the Fair of the American Institute in the City of New York a Silver Medal was awarded, at the great State Fair at Poughkeepsie, N Y 1844, where was the greatest competition ever known, the first premium was awarded to it and lastly at the Exhibition and Fair in Boston a Silver Medal was awarded to it. This celebrated Stove stands unrivalled in Boston, New York and other places where it is in extensive use, 1800 of them were retailed by one establishment in Boston the past year, for all cooking and heating purposes it far surpasses any other Cooking Apparatus that can be produced. The oven is extremely large, being of sufficient capacity to admit six large pies, or six large loaves of Bread, or even the largest pudding or bean pots in use at the same time. In addition to the advantages it has over other Stoves for boiling, baking, washing, frying, heating irons &c, it is acknowledged by all who use them that they have the best arrangement for Baking and Roasting that has ever been in use, the steam (from all the cooking) being carried off effectually. This Stove being composed of two parts can be disconnected in one moment's time, so as to make two perfect Stoves which is of great value in warm weather as the summer stove which makes a handsome parlor stove may be used in the sitting or dining room—and the other part in the back kitchen for Boiling or Washing, and in the fall of the year the two parts may be connected together as is represented above. In fact it is impossible to tell one half of the story about this Stove, and all who feel interested to get a first rate Cooking Apparatus are respectfully requested to call at our Store and examine the above where will be found a first rate assortment of Cook Stoves, Ranges, Hot Air Furnaces and Fixtures, Tin Ware, Sheet Lead, Pump, Lead Pipe, Fire Frames &c.

PURIFY THE BLOOD.

MOFFAT'S VEGETABLE LIFE PILLS AND PHŒNIX BITTERS.

The high and envied celebrity which these pre eminent Medicines have acquired for their invariable efficacy in all the diseases which they profess to cure, has rendered the usual practice of puffing not only unnecessary, but unworthy of them. They are known by their fruits, their good works testify for them, and they thrive not by the faith of the credulous.

IN ALL CASES

Of ASTHMA, ACUTE and CHRONIC RHEUMATISM, AFFECTIONS of the BLADDER and KIDNEYS

BILIOUS FEVERS & LIVER COMPLAINTS.— In the south and west where these diseases prevail they will be found invaluable. Planters, farmers and others who once use these Medicines will never afterwards be without them.

NO QUACKERY. NO DECEPTION!

All published statements of cures performed by this medicine are in every respect TRUE.

BEWARE OF COUNTERFEITS AND IMITATIONS. The unparalleled and astonishing efficacy of Dr Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended, curing many cases after the skill of the best physicians was unavailing, has effected a large and increasing demand for it. This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance, for the genuine Balsam.

Be careful and get the genuine DR WISTAR'S BALSAM OF WILD CHERRY. None genuine unless signed by I BUTTS. Address all orders to SETH W FOWLE, Boston, Mass.

N. H. DOWNS'

Vegetable Balsamic Elixir.

The great Northern Remedy for CONSUMPTION.

Also for the cure of Colds, Coughs, Whooping Cough, Croup, Bleeding of the Lungs, Bronchitis, Catarrh, and all diseases of the Pulmonary or Breathing Organs.

It is now more than ten years since this incomparable remedy was given to the public with what success the thousands of restored invalids, with the universal encomiums of a grateful people afford abundant and gratifying evidence. It need no medicine has ever with such UNIVERSAL SUCCESS grappled with disease. It is its own best commendation, and to be valued needs but to be known.

Its operation upon the system is marked and peculiar from that of most similar preparations. It is EXPECTORANT, and most essentially aids the expulsion from the stomach and lungs of phlegm and phlegmatic humors, through the process of expectoration or pitting.

It is SUDORIFIC and promotes a healthy perspiration thus expelling by the pores of the skin [illegible] impurities of the blood [illegible] the system is a prolific [illegible]

It is highly CATHARTIC and usually [illegible] upon Pulmonary complaints, while most similar preparations [illegible] effect thus adding to instead of diminishing that difficulty. (See statements of Mr Moss, Mr Moss and others, in the pamphlets and sheets.)

We do not pretend that the Elixir is a specific for all the ills that flesh is heir to, but we do say and can confirm by incontestible evidence that for CONSUMPTION it is unequalled. Hundreds of [illegible] have been snatched from an untimely grave and hundreds more who delayed too long, its use, have found even then that relief from suffering which they had vainly sought from every other source.

For hard and obstinate COUGHS whether produced by a mere cold, the relic of a fever or the result of a more fixed and permanent pulmonary habit it is just the thing needful as by its wonderful expectorant qualities it loosens the cough and enables the patient to raise with little effort what would otherwise cause hours of hard and laborious coughing. Many persons testify that after having been unable to obtain more than a slight degree of rest for weeks they have on taking the first dose obtained a comfortable night's rest and by continuing its use, in a short time have been restored to health.

OBSTINATE COLDS AND COUGHS it will usually cure in from two to five days.

To persons afflicted with *WHOOPING COUGH* we would especially recommend the Elixir as it relaxes the cough, and saves much of the labor of hard coughing usually attendant upon that disease. [illegible] a perfect cure in this distressing malady, as Downs' Elixir. (See certificates of Mr Carleton, Mr Perkings and others in pamphlet.)

CROUP. This dangerous malady in children may be cured by Downs Elixir. We speak confidently having yet known, among the hundreds of instances in which it has been used, one where it has failed after a fair trial.

BLEEDING AT THE LUNGS. In this dangerous and formidable disease, the success of the Elixir has been such that we feel authorized in saying, no [illegible] has ever met with [illegible] success. [illegible] perhaps never been known to fail where it has been early resorted to and the directions faithfully followed. (See statements of Mr Meader, Mr Waller, Mr Downs, Alderman Norton and others in the sheets and pamphlets.)

In conclusion we would say never despair — Hope on hope ever! If you still doubt of its virtues its efficacy enquire of those who have used it. Enquire of the Agents who sell it. They generally either from experience or observation know its merits and when they tell you of its effect —what they have seen and what they know—are entitled to your confidence.

[illegible]

[illegible] Nature [illegible] the United States [illegible] OF NATURAL MEANS TO COUNTERACT THE [illegible] OF NATURE.

[illegible]

The success of this invaluable medicine entitles it to unlimited confidence and respect. The nearer we approach to nature in our researches after truth [illegible] both in science and art the more complete will be our success in both. Look at the uniform physical condition of the Indian Tribes of this continent, whether exposed to the frosts and storms of the North or to the rain heat and pestilential miasma of Southern climate. Houseless and protected exposed to every atmospheric change every extreme of the seasons dwelling at times in morasses and by the margins of unhealthy pools and swamps— they yet enjoy an almost total immunity from disease while the white man who enjoys all the comforts of civilization with its attendant arts is as much inferior to the savage in physical vigor as he is superior to him in intellectual acquisitions— How does this happen? Simply because bereft of the light of science he relies upon that divine instinct which impels him to select from the produce of the field and forest those remedies which Nature and Nature's God has bounteously provided for the solace of suffering and the mitigation and cure of disease—sowing them broadcast on every hill and valley. Let those who impiously arraign the goodness of Divine Providence, and point with a sneer to the multitude of invalids who are groaning upon beds of sickness turn from the false lights of man and study the secrets of nature and they will adore that mercy which has so bountifully provided a cure for every wound—*a remedy for all who seek one.*

[illegible] hence the absurdity of [illegible] But Wright's Indian [illegible]

[illegible]

GENUINE "WRIGHT'S INDIAN VEGETABLE PILLS."

These Pills as we before remarked operate by purgation—by thoroughly cleansing the entire system of impurities, and [illegible] the invalid in the homely but expressive phrase "a new man." Whether the disease be INCIPIENT CONSUMPTION which insidiously attacks the Lungs, produces that dry, hacking cough so painful to the friendly ear or Cutaneous, showing its [illegible] in the skin in eruptions or blotches, whether the Kidneys or the Bowels be affected—*Wright's Indian Vegetable Pills* are equally efficacious in warding off danger. Their expectorant, cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease.

The *perfect safety* of the medicine is another all important quality and one which has contributed more than any thing else to its extension and popularity.

In a word this medicine commends itself strongly to the patronage of the public and its use bids fair to become, before long, ALMOST UNIVERSAL.

BRONCHITIS. [illegible]

[illegible] *Dr Buchan.*

This is a very painful, wearing and injurious complaint and always has a powerful tendency to inflame and often the Lungs, and thereby to induce the worst form of Pulmonary disease. Be warned in time, ye afflicted! and employ this valuable remedy.

TUBERCLES ON THE LUNGS. The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove and cure [illegible] conclusive evidence to sustain the assertion that such is its direct and immediate effect in all cases where there is no natural organic defect. In fact, so confident is the American Agent of its power to cure the worst form of this disease that he prefers (as he has frequently stated) that it should be used by invalids who have been PRONOUNCED INCURABLE by the most eminent physicians rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent. He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the [illegible]

This is no delusion but demonstrable fact sustained by incontestible proof from all parts of the country.

BE WISE TO DAY! Delay in any case of Consumptive tendency is emphatically Death under all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE as well as CURATIVE. If you have any symptoms above described, be advised in time.
